

PATENT SPECIFICATION

Application Date: Aug. 5, 1927. No. 20,687 / 27.

294,776

Complete Left: March 28, 1928.

Complete Accepted: Aug. 2, 1928.

PROVISIONAL SPECIFICATION.

Improvements in Boxes or Cases for Cutlery.

We, KURT HUGO HINKEL, British, 11, Warwick Court, High Holborn, W.C. 1, SYDNEY CORAH GIBBS, English, 11, Warwick Court, High Holborn, W.C. 1, do hereby declare the nature of this invention to be as follows:—

A box to contain spoons and forks and table cutlery in divided partitions with two handles or hand holes one at either 10 end, with a loose lid in the form of a tray also with two handles exactly aligning with the two handles on the box. This

lid has a beading or gallery all round the outer edge and when removed by means of the two handles it forms an independent tray standing on four feet these feet acting as steady pins to hold the tray in position when answering the purpose of the box lid. 15

Dated this 5th day of August, 1927.

K. H. HINKEL.

COMPLETE SPECIFICATION.

Improvements in Boxes or Cases for Cutlery.

We, KURT HUGO HINKEL, English, 11, Warwick Court, High Holborn, W.C. 1, London, SYDNEY CORAH GIBBS, 11, Warwick Court, High Holborn, W.C. 1, London, English, do hereby declare the 25 nature of this invention and in what manner the same is to be performed, to be particularly described and ascertained in and by the following statement:—

A box to contain spoons and forks and 30 table cutlery in divided partitions with two handles or hand holes one at either end with a loose lid in the form of a tray also with two handles exactly aligning with the two handles on the box. The lid 35 has a beading or gallery all round the outer edge and when removed by means of the two handles it forms an independent tray standing on four feet these feet acting as steady pins to hold the tray in position when answering the purpose of the 40 box lid.

Fig. 1 in the accompanying drawing shows the box or case A, with tray B in position as a lid.

Fig. 2 in the accompanying drawing 45 shows the box or case A showing divisions C for the cutlery, etc., with the tray or lid B removed revealing it as a tray standing on feet D, which when used as a lid

to the box engage the insides of box at 50 each corner.

The box is provided with a pair of handles or hand holes A¹ and the tray with a similar pair B¹ the handles or hand holes exactly aligning as shown when the tray is in use on the box. 55

Having now particularly described and ascertained the nature of our said invention and in what manner the same is to be performed, we declare that what we 60 claim is:—

1. A box or case for cutlery, spoons and forks provided with a tray-like lid which can be used independently of the box, both box and tray-like lid having pairs of handles or hand holes which are in exact alignment when a tray-like lid is in position on the box. 65

2. A box or case as in Claim 1 in which the tray-like lid has feet which when the lid is on the box fit into the corners thereof and hold the tray steady. 70

3. A box or case for cutlery, spoons and forks substantially as described and illustrated. 75

Dated the 13th day of July, 1928.
KURT HUGO HINKEL.
